

5-MIN CHECKUP

BRANDING ZOMBIE DESIGNS

IS YOUR BRAND HALF-DEAD?

The 25-Point Small Business Brand Checkup

Score your business in 5 minutes. Find the dead spots before your customers do.

LET'S BE HONEST FOR A SECOND.

You started a business to do the work you're good at — fix the AC, cut the hair, cook the food, ship the product. Not to fuss over logos and websites. So the "brand stuff" got handled fast, cheap, or never. That's normal.

But here's the thing: **your customers judge your business before they ever call.** The truck they pass. The card they're handed. The site they thumb through at a red light. The Google listing they tap. If those look half-dead, they assume the business is too — even when you do great work.

This is a 5-minute checkup to find out where your brand is alive, where it's fading, and where it's flat-out a zombie. No jargon. No sales pitch. Just **25 honest yes/no questions.**

HOW TO SCORE

- Give yourself **1 point for every box you can honestly check.**
- If something truly doesn't apply (no work vehicle, no physical product), **skip it** and score against what's left.
- **Add up your checks** at the end, then find your verdict on the last page.
- Don't overthink it — go with your **first gut answer.**

① ON GOOGLE

Can people even find you?

- ☐ 1. **You've claimed your Google Business Profile.** You control it, and the hours and phone are correct.
- ☐ 2. **You have 10+ reviews — and you've replied to them.** Replies signal you're alive and paying attention.
- ☐ 3. **Your photos are real and recent.** Actual work and storefront, last 6 months — not just a logo.
- ☐ 4. **Your name, address, and phone match everywhere.** Identical on Google, your site, and Facebook.
- ☐ 5. **You show up on the map.** Search "[what you do] near me" on your phone — you're there.

② YOUR WEBSITE

Does it leak customers?

- ☐ 6. **You have a real website.** A site you own — not just a Facebook page or a "coming soon."
- ☐ 7. **It looks right on a phone.** Loads fast, nothing cut off, no pinching and zooming.
- ☐ 8. **Your phone number shows the second it opens.** No scrolling, no hunting, no contact-form maze.
- ☐ 9. **It looks current.** A stranger wouldn't guess it was built in 2012.
- ☐ 10. **It has proof, and contact is one tap.** A review on the page + a tap-to-call or tap-to-book button.

③ LOGO & BRAND

Does it look like a real business?

- ☐ 11. **You own a real logo file.** A vector (.ai/.svg/.eps/.pdf) — not just a screenshot or low-res JPG.
- ☐ 12. **You use the same colors and fonts everywhere.** One consistent look, not three versions floating around.
- ☐ 13. **Your logo works in one color.** It still reads as a stamp, an embroidered hat, or a sign.
- ☐ 14. **It's readable when small.** Shrunk to business-card or app-icon size, you can still tell what it is.
- ☐ 15. **It looks like you, not a template.** Not an obvious \$50 Fiverr flip or a generic AI guess.

④ PRINT & PAPER

What you hand people sticks around.

- ☐ **16. You have business cards you're proud to hand over.** Not the free ones with someone else's logo on the back.
- ☐ **17. You have a branded flyer, menu, or one-pager.** Something that matches the rest of your look.
- ☐ **18. Your product looks shelf-ready.** IF YOU SELL A PRODUCT Label and packaging look like they belong in a store.
- ☐ **19. Your invoices and quotes are branded.** Your name and look on the paperwork — not a blank template.
- ☐ **20. Everything printed uses the same logo and colors.** One source file, no mismatched versions in the wild.

⑤ ON THE ROAD & ON THE JOB

Your business, out in public.

- ☐ **21. Your vehicle is branded.** IF YOU DRIVE FOR WORK Lettering, a wrap, or magnets — not a blank work truck.
- ☐ **22. You have a sign people can actually see and read.** Storefront, yard sign, or job-site sign.
- ☐ **23. You and your crew wear branded shirts or hats.** You look like a team, not random people.
- ☐ **24. Your signs and shirts match your logo.** Same colors, same fonts, same business.
- ☐ **25. It all hangs together.** Truck, shirt, and card side by side — clearly the same business.

CHECKS →**

Out of 25 (minus anything you skipped). Find your verdict on the next page.

My
score:

YOUR VERDICT

Add up your checks. Find your number. Then do something about the dead spots.

21-25 ALIVE & THRIVING

Your brand has a pulse and it shows — you're in the top slice of small businesses. The wins now are small: a sharper label, a faster site, one more place you're consistent. **Want a second set of eyes on the last few percent? Book a free 15-minute checkup.**

14-20 SHOWING A PULSE

Better than most — but there are dead spots customers notice even if you don't. Usually one weak link drags the rest down. Fix it and the whole thing levels up. **The fastest wins are almost always your Google listing and your website — let's find yours.**

7-13 HALF-DEAD

Hard truth: you do good work, but your brand is costing you calls. The good news — this is the most *fixable* score on the page. **Two fixes move the needle most: a real logo file and a site that loads on a phone.** Book a free 15-minute checkup and we'll map the shortest path.

0-6 IT'S ALREADY A ZOMBIE

No sugar-coating it: your brand is working against you right now. But the upside — starting near zero, the jump is *dramatic*, and you don't do it all at once. **The \$997 Launch Kit gets you a real logo, a one-page site, and cards in days, not months. Let's bring it back to life.**

ONE CALL. NO CHARGE. NO JARGON.

We'll go through your score together and tell you the 2-3 things to fix first — whether you hire us or not.
